## **Activities that Both Occupations Have in Common**

Similarity of Focus
Occupation to Associated
Occupation: 88

Focus Occupation: Power Plant Operators (51-8013)

Associated Occupation: Stationary Engineers and Boiler Operators (51-8021)

| Work Activities   | Exclusivity of Activity |
|---|-------------------------|
| Adjust production equipment/machinery setup                         | 25                      |
| Clean equipment or machinery  | 20                      |
| Control operation of compressors                                    | 76                      |
| Install/connect electrical equipment to power circuit               | 57                      |
| Maintain consistent production quality                              | 50                      |
| Maintain or repair industrial or related equipment/machinery        | 39                      |
| Maintain production or work records                                 | 19                      |
| Monitor production machinery/equipment operation to detect problems | 27                      |
| Operate power driven pumps  | 66                      |
| Operate power generation equipment                                  | 84                      |
| Perform safety inspections in manufacturing or industrial setting   | 33                      |
| Use electrical or electronic test devices or equipment              | 40                      |
| Use hand or power tools   | 2                       |
| Use pneumatic tools   | 66                      |

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.

# **Tools and Technologies that Both Occupations Have in Common**

Similarity of Focus
Occupation to Associated
Occupation: 74

Focus Occupation: Power Plant Operators (51-8013)
Associated Occupation: Stationary Engineers and Boiler Operators (51-8021)

| Tools and Technologies                                | Exclusivity |
|---|-------------|
| Computers   | 1           |
| Content authoring and editing software                | 1           |
| Data management and query software                    | 1           |
| Dispensing tools                                      | 6           |
| Electrochemical measuring instruments and accessories | 9           |
| Gas analyzers and monitors                            | 10          |
| Indicating and recording instruments                  | 2           |
| Industry specific software                            | 1           |
| Information exchange software                         | 1           |
| Pressure measuring and control instruments            | 10          |
| Pumps   | 9           |
| Respiratory protection                                | 6           |
| Transducers   | 23          |
| Water treatment and supply equipment                  | 21          |

Not all positions in these occupations will necessarily use all of the listed tools and technologies. The exclusivity rating is an indication of how unique the tool or technology is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations use that tool or technology.
